WHAT MAKES OPTICAM SO POWERFUL?

Self-Healing Technology

- **UV-Activated Polymer:** Minor scratches disappear in sunlight or mild heat—no more blurred images or lens replacements.
- **Smooth Surface, All the Time:** Fewer service calls and warranty headaches for the dealer.

Hydrophobic & Anti-Fog

- **Stay Clear in Rain/Snow:** Water beads up and rolls off, so cameras stay unobstructed during bad weather.
- **No More Foggy Lenses:** Prevents condensation that can ruin ADAS performance.

Robust Warranty Coverage

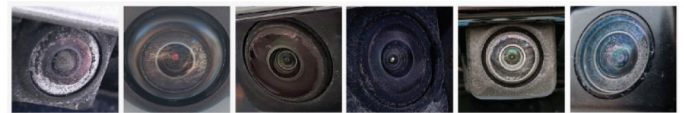

- **Peace of Mind for Car Buyers:**
3-Year, 36,000 mile Limited Warranty
Covers yellowing, bubbling, and cracking for 3 years post-installation. Covers up to \$3k in damage
They get a next-level assurance on camera safety and clarity.

Lens & Sensor Protection

- **Stops Rock Chips, Road Debris:** Tiny impacts are absorbed by the film, saving cameras/sensors from costly replacements.
- **High Optical Clarity:** No image distortion—perfect for backup cams, 360° views, and advanced driver assist.

Fast, Profitable Installation

- **Short Learning Curve:** Dealers can implement same-day installations as the cars arrive on the lot.
- **Generate Revenue Instantly:** Add to every new or used car—watch the margin climb per unit.

Happy Dealers

Less camera-related downtime, easy upsell.

Satisfied Customers

Better visibility, fewer camera problems.

Thriving Agents

A fresh product that pays off—fast.
